

Commercial, Do it yourself ESTIMATE WorkSheet

Easily create an ESTIMATE yourself. The steps are simple. All you need are the total Width and Height measurements in inches from all your windows added together and then multiplied by \$0.77, or one of our Special Quantity Discounts. And, if you have any arched windows you will add an additional \$20 per arched window. Because this is for the purpose of an estimate ONLY, your measurements do not need to be accurate, just close (rough). Getting your measurements is easy; comfortably do so from inside the commercial building, there is no need to go outside. Hint : Many of your windows will be the same.

Step 1 Measure the width of your windows in inches

Please be sure to watch our "Do it yourself Estimate Worksheet" Video on our website to show you how to do this quickly and easily.

www.JoshHobbs.com

Step 2 Measure the height of your windows in inches

Step 3 Calculate your measurements here

	Width	Height	
Window #1	_____	_____	
Window #2	_____	_____	
Window #3	_____	_____	
Window #4	_____	_____	
Window #5	_____	_____	
Window #6	_____	_____	
Window #7	_____	_____	
Window #8	_____	_____	
Window #9	_____	_____	
Window #10	_____	_____	
Window #11	_____	_____	
Window #12	_____	_____	
Window #13	_____	_____	
Window #14	_____	_____	
Window #15	_____	_____	
Window #16	_____	_____	
Window #17	_____	_____	
Add each column	_____ + _____ = _____		
	Width total	Height total	Total Inches
Multiply the Total Inches for all your Windows by	x	\$0.77	<u>or</u>
			= _____
Arch Qty _____ x \$20ea = _____			+ _____
This Estimated cost is for EVERYTHING: Assembly, Measurements, Installation and .0825 State Sales Tax = _____			

80% vs 90% Fabric :
 Percentage of shading (the fabric's density). Please see our Questions & Answers Page on our website for a detailed explanation of the 80% vs 90% Fabric.
 The Pricing on this worksheet is for our 80% solar screen fabric. The upgrade cost to our 90% fabric is a flat \$5.50 p/ Window.

Special Discounts

As a Special Quantity Discount, if your Total Inches are between these values, then use these discounted multipliers, and save.

(613" - 1350") **\$0.66 15%OFF**

(1351" - 2199") **\$0.63 20%OFF**

(2200"+) **\$0.59 25%OFF**

** Minimum Order **
 Any size order under 499" (includes 80% or 90%) is a flat installed rate of \$330 plus Arch fees.

Step 4 Start your order online at www.JoshHobbs.com

We make this very easy, all you have to do is click on the Buy Now button located at the bottom of our web page which processes a \$50 non-refundable measuring deposit (to be applied against your order). Once we receive your deposit, we will swing by your commercial building to measure your windows to get our build measurements (no one needs to be there for this). We only install our solar screens on the 1st and 2nd floor windows of commercial buildings, not 3rd floor windows. Once we get our build measurements, we will email you an order to approve with an installation date (no one needs to be there for the installation). Once we receive your approval, we will proceed with the assembly of your solar screen order. We are super fast. your new screens can be installed within two weeks.
